# Configuring Indoor Space for Events

**With outdoor events beginning to reemerge, we know that even more care will need to be taken in restarting indoor events. How will attendees and spectators be able to enjoy your indoor facilities and venues in a safe manner?**

**InProduction can help you with making the changes to your venue's seating and traffic flow in order to direct crowds, promote social distancing, and keep your areas and venues sanitized. We are helping retrofit venues across the country to accommodate today's needs and capacity restrictions.**

**The following pages detail some of the concepts InProduction is developing and can deliver for your venues and events in order to help achieve a sanitized environment for guests and employees alike. Some of these concepts include:**

- **“One-way Streets” for directing crowds safely through events**
- **Privacy screens for seating configurations**
- **Numerous options for social distance seating**
- **Wall and desk dividers for hospitality, concession, ticketing, and merchandising areas**
- **Readily available sanitation stands**
- **Drape for partitioning areas and scenic design**
- **Easy to clean seating and surfaces**

**Call us to discuss and customize your event or venue.**

## Safe Suites with Privacy Screens for Existing Venues

- Clear privacy screens are installed without modifications to existing seating and stadiums.
- Design does not impede existing sightlines that are designed for optimal viewing.
- Creates flexible seating areas that can accommodate any number of patrons.
- Constructed with materials that are easy to clean and maintain between shows.
- Front brace panel provides an opportunity for branding or logos.
